

ACTIVITIES SUPPORTING PROGRAM GOALS

List activities to be performed. Activities must be allowable, allocable and reasonable. **For planning activities**, please include activities planned under section 303 of the Emergency Planning and Community Right-To-Know Act (EPCRA) (e.g. commodity flow studies, hazard risk analyses, emergency plans to be written, emergency plans to be updated, and emergency plans to be exercised). **For training activities**, please list all training activities including trainings that fall under the NFPA 472 core competencies or OSHA 29 CFR § 1910.120(q) you plan to carry out with HMEP funds. Provide training type, training activity description, number of courses to be held, and the projected number of individuals to be trained. PHMSA will require a progress report during the performance period and at the end of the performance period detailing other accomplished training activities (Insert more rows to the table, as needed, to document all other projected training activities). **Note:** If no changes to activities in approved original application please annotate in first row under Activity Description "no changes".
