	Title: COO
	Address: 2125 Center Ave, Suite 500, Fort Lee, NJ 07024
	Email Address: shilpamo@hazconnect.com

QUESTIONS

Please insert all questions

1. Can you provide clarification on what is meant by Section 3.2.1.3 Is a direct portal available to be integrated on SERC and SFM websites? **This is a URL or link to the program for ADMIN and Customers.**
2. Can you provide clarification on the difference of information you are looking for in Sections 3.6.1.5 vs 5.1? **3.6.1.5 we would like to know what your current storage of data looks like. Do you have onsite/off site storage, backups what kinds of measures you take in securing the data. 5.1 your efforts in a secure system, (i.e. hacking, unauthorized access), your storage and archive capabilities as well as retrieval of data. They are along the same lines.**

3. When making references to "Cloud based" are you referring to distribution of the application solution using the Software as a Service (SaaS) model in which the Agency does not buy a license, but rather leases the license? Or are you referring to the technical infrastructure of the cloud, which is built in virtualized environment and can be scaled quickly? A clarification would be appreciated. **Basically storing our data off site on secure servers.**
