STATE EMERGENCY RESPONSE COMMISSION (SERC)

SERC OPTE Grant Application Kit

FY2026

For Local Emergency Planning Committees

The SERC has developed this application kit as a template for Local Emergency Planning Committees (LEPCs) to apply for the SERC Operations, Planning, Training, and Equipment (OPTE) Grant. Application and award of grants are managed pursuant to SERC policy 8.2. The source of funding is derived from fees collected from SARA Title III facilities within the State that store and/or produce hazardous materials in specified amounts. As these are State funds, there is no Catalog of Federal Domestic Assistance (CFDA) number associated with this grant.

The grant project period is July 2025 through June 2026. Grant funds will be distributed on a reimbursement basis; however, the LEPC may request advance funding for expenses over \$2,000, policy 8.5.

LEPCs are eligible for funding through this grant if they are in compliance with the Emergency Planning and Community Right-to-Know Act (EPCRA), Nevada Administrative Code (NAC), and SERC policies. SERC policies may be reviewed at <http://serc.nv.gov>.

The format is as follows:

- I. **Goals** - Identify what the LEPC would like to accomplish with the requested grant funds to prevent, mitigate and/or respond to hazardous materials incidents. Provide detailed proposed planning, training and equipment needs for the period July 2025 through June 2026.
- II. **Objectives** - Identify the specific approaches to achieve the goals through prevention of, mitigation of and/or response to hazardous materials incidents. Objectives need to be specific and measurable.
- III. **Line Item Budgets** – List each item as a line item on the budget page. The grant request shall be for **NO MORE THAN \$36,000**.(this includes the \$4,000.00 for Operations)

An additional \$4,000 of Operation funds will be available if the LEPC is administratively compliant. The purpose of these funds is to provide for LEPC members to attend LEPC and SERC meetings, as well as operation costs. If requesting, up to 50% of operations funds for clerical assistance, include that amount in the line item budget.

- IV. Budget Narrative – Explain each item listed in the line item budget. If requesting up to 50% of operations funds for clerical assistance, include a detailed justification for the use of funds. Clerical assistance funding is no longer automatically awarded and will be subject to SERC approval.**

Remember to comply with SERC Policy 8.2 related to the required quotes or sole source for appropriate purchases. If you have questions, please contact the SERC office.

Provide an explanation for items that do not correspond with the declared level of response due to formal agreements with other entities.

After completing the application, a PDF version e-mailed to the SERC is preferred with any additional pages included e.g., quotes, letter of denial, etc. or you may submit the entire application package with all attachments by mail.

If you submit electronically and do not receive confirmation of receipt within 24 hours or two business days, please follow-up with the SERC.

Please call SERC staff at (775) 684-7511 if you need assistance.

I. GOALS:

*Tell the SERC what you want to accomplish with this grant. **Provide a separate discussion of each goal and justify its need towards the prevention, mitigation and/or response to hazardous materials incidents involving transportation.** The goals are general statements of desired results and identify intended outcomes the program has established to achieve. Justification to prevent, mitigate and/or respond to hazardous materials incidents must be addressed.*

White Pine County would like to have greater protection and detection capabilities for hazardous materials which are transported in White Pine County on a regular basis. Improved gas detection equipment would assist in this goal. In order to protect responders and victims, we would like to acquire non sparking tools to stabilize vehicles involved in accidents rescue travelers who are trapped, and reduce the spread of material leaks. To further protect responders we would like to ask for two sets of firefighter PPE.

II. OBJECTIVES:

How do you plan to achieve the goals listed above? Include specific uses of this grant funding to prevent, mitigate and/or respond to hazardous materials incidents. Objectives focus on the methods/activities to be used to achieve the goals they support.

Answer these questions in each objective:

- ✓ **WHAT** will be purchased with these grant funds?
- ✓ **WHO** will complete the purchases awarded?
- ✓ **WHEN** will the purchases be made and the activity implemented?

Click inside gray box to begin typing

Procure and distribute seven advanced gas detection devices throughout all volunteer fire departments within the county to enhance hazardous material response capabilities and improve responder safety.

The gas detection units can be used for detecting low oxygen levels and allow responders to detect where other gases have displaced oxygen and pose a threat to locals. This can also allow responders to appropriately use the correct levels of personal protection equipment and protect themselves.

WPCFPD Chief Hall will complete the purchases in a timely manner following receipt of funds and distribute to local volunteer fire stations.

Ely City Fire is a primary responder to most accident calls as they have full time firefighters. To respond to accidents with hazardous materials, they will acquire two sets of firefighter PPE, sets of non sparking tools and cribbing to respond and rescue passengers involved in accidents. These tools also include equipment to reduce the spread of leaking material.

Ely Chief Stork will complete these purchases in a timely manner following a receipt of funds and will stage the equipment within his department.

III. BUDGETS:

Planning:

Requests to contract with a consultant must be accompanied by at least two competitive bids. The bids must include an itemized quote and detailed scope of work from the consultant.

Training:

All training requests must first be made through the State Fire Marshal's office (SFM) and the Department of Emergency Management (DEM). If the SFM or DEM declines the training, the request may be included in the grant application along with the letter of declination.

Requests to contract to provide training must be accompanied by at least two competitive bids. The bids must include an itemized quote and detailed scope of work from the consultant.

State per diem rates (which generally follow the federal GSA rates; (<http://www.gsa.gov>) will prevail unless local rates are less. Travel eligibility requirements and rates are further defined in SERC policy 8.5. The rates listed below are for calendar year 2024 only and are subject to change.

If a privately owned vehicle is used for agency convenience, mileage may be reimbursed at the State rate, currently .67 cents per mile. If a personal vehicle is used for personal convenience, the reimbursement allowed is .335 cents per mile. If an agency vehicle is used, reimbursement may be made for fuel charges based on receipt or agency fuel logs. Airport parking (most economical lot only) and ground transportation expenses are reimbursable upon presentation of receipts. Rental cars must be pre-approved by the SERC.
